

ATTACHMENT B

REMARKS

By this Supplemental Amendment, Applicants amend the application to add a claim directed to an isolated antibody which binds to an amino acid sequence as set forth in SEQ ID NO: 7 as per the discussion between Applicant's counsel and the Examiner. Applicants have canceled without prejudice Claim 19 so that there will be no total additional claims and no fee required. As per the Examiner's request, a courtesy copy of this amendment is being faxed to Examiner Mertz at 571-273-0876.

Applicants thus submit that the present application is in condition for examination and allowance, and such action is thus earnestly solicited.
